**TOWN OF ADAMS
NOTICE OF PUBLIC HEARING
BOARD OF HEALTH
JUNE 12, 2019
4:00 PM**

The Adams Board of Health will hold a public hearing pursuant to Massachusetts Department of Environmental Protection regulations on solid waste as codified in 310 CMR 19.017; to Adams Town Code c. 101, Sections 5 and 7; and to MGL c. 111 Sections 31, 31A, 31B, 122 and 150A on **Wednesday, June 12, 2019 at 4:00 PM** in the Adams Town Hall, 8 Park Street, first floor, Mahogany Room to address proposed revision of regulations for waste haulers licensed in the Town of Adams. Briefly, the regulations would require licensed haulers to inform residential clients of the current requirement to separate recyclable materials from non-recyclables (trash) in household solid waste; to provide clients with appropriate containers for separated waste; to monitor compliance of mandatory recycling, including refusal of inappropriately admixed waste with a notice describing why said waste was unacceptable; and to maintain records of clientele, tonnage of waste classes hauled, and the instances of non-compliance for reporting. A copy of the draft regulations may be obtained by contacting the Adams Board of Health at 413-743-8300 extensions, 104 & 106 or Chairperson Shepley at bshepley@town.adams.ma.us.

Bruce Shepley
