Route 8 / Howland Ave Redesign Open House and Public Meeting

**Wednesday, March 23rd from 3:00-7:00pm
in the Town Hall Selectmen's Room (1st floor)**

Presentation and workshop meeting by the
Adams Board of Selectmen will begin at 6:00pm

The Town of Adams is working with VHB engineers on a potential redesign of the Route 8 / Howland Avenue corridor from Lime Street north to the Town Line. The conceptual design proposes a "road diet" which will reduce the number of travel lanes and install a landscaped center median to create a boulevard feel along the roadway. Goals for the project include improving safety for cars, trucks, pedestrians, and bicyclists, moving traffic more efficiently, providing designated turn lanes, reducing vehicle speeds, and creating a more attractive gateway to Adams through improved aesthetics.

Please attend and show your support for this project!
