

Easy The 80-gallon Earth Machine® is a durable backyard compost bin designed to compost food and yard waste, effectively diverting it from landfills. When residents are encouraged to divert organics from the waste stream and are educated about the benefits of composting, up to 50% of organic waste can be diverted from the waste stream. The Earth Machine is for food and yard waste only. The Earth Machines are ordered through Orbis under our state Contract at the subsidized cost of **\$59.00**. The retail cost is **\$189.99** ordering directly through the vendor.
